

## PLUMBER

This Trade broadly covers installation, repair and maintenance of plumbing fixtures, systems such as water, drain, waste and vent (DWV), low pressure steam, chemical and irrigation. They are able to install specialized systems such as medical gas, process piping, compressed air, water conditioners, fuel piping, sewage and water treatment, and storage and flow equipment. Plumbers may be employed by plumbing/mechanical contractors, service companies, and maintenance departments of manufacturing, commercial, health care and educational facilities. They may also be self-employed. Plumbers install piping and equipment in residential, commercial, institutional and industrial buildings and sites.
